Notes to the Consolidated Financial Statements 6

Creating economic wealth and diversification through investment of immigrant investor capital in Saskatchewan

INTRODUCTION

Mandate

The Saskatchewan Government Growth Fund Management Corporation (SGGF MC) was established in 1989 under Order-in-Council to create and manage investment funds that have been accepted as government administered venture capital funds under the Federal government's Immigrant Investor Program.

Vision

SGGF MC envisions the creation of economic wealth and diversification through investment of immigrant investor capital in Saskatchewan.

Mission

The mission of SGGF MC is to participate in the Federal government's Immigrant Investor Program for the purpose of acquiring relatively low cost capital for investment in the Saskatchewan economy on commercial terms, thereby creating wealth and diversification, while also ensuring a return of capital and nominal investment income to the immigrant investor.

Profile

SGGF MC participates in the federal government's Immigrant Investor Program (IIP). This program acquires lower cost capital for the commercial investment in Saskatchewan, providing small and medium-sized businesses with capital to grow and prosper, and thereby facilitating long-term economic growth and development for the Province.

The ability of SGGF MC to raise additional funds under the IIP ended on March 31, 1999, when a new Federal program was launched and SGGF MC declined to participate. In 2003, the fund companies were closed to new deposits and all investors were required to pay their subscriptions in full by December 15, 2003. The capital currently under management and from the three funds launched in 1999 will require administration for at least the next five years.

SGGF MC manages eight government administered venture capital funds under the old IIP, specifically:

Saskatchewan Government Growth Fund Ltd. (SGGF I);
Saskatchewan Government Growth Fund II Ltd. (SGGF II);
Saskatchewan Government Growth Fund III Ltd. (SGGF III);
Saskatchewan Government Growth Fund IV Ltd. (SGGF IV);
Saskatchewan Government Growth Fund V (1997) Ltd. (SGGF V);
Saskatchewan Government Growth Fund VI Ltd. (SGGF VI);
Saskatchewan Government Growth Fund VII Ltd. (SGGF VII); and,
Saskatchewan Government Growth Fund VIII Ltd. (SGGF VIII).

SGGF fund companies have provided an important source of venture capital financing in Saskatchewan to assist in economic development in the Province.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Second Quarter Results

SGGF MC's consolidated loss for the six months ending June 30, 2006 of $100.3 thousand has increased from its comparative period in 2005 (net loss of $13.4 thousand) by $86.9 thousand. The increase in net loss is due to lower management fee revenue ($330.2 thousand lower) offset by decreased operating expenses of $237.6 million due mainly to decreased fund manger fees.

Management fee revenue for the first six months of 2006 was $713.7 thousand, down $330.2 thousand from the same period in 2005. Management fee revenue consists of two components. The first component is a recovery of investment management fees. The second component is a modest mark-up on these management fees used to fund administrative expenditures that are not charged back to the Fund companies. Based on a designed plan to reduce costs to the fund companies as they continue to wind down, the markup on management fees was reduced from 6% to 4% effective January 1, 2006. Investment management fees declined by $203.9 thousand in 2006, over the same period in 2005, resulting in a commensurate decline in management fee revenue. Management fees are declining due to a decrease in the asset base on which the fund management fee is calculated. As SGGF Fund companies continue to wind-down operations SGGF MC will continue to experience revenue reductions.

In addition to declining Fund manager fee expense, legal and professional fees of $194.0 thousand were $49.7 thousand lower than the comparative period expenses in 2005 primarily due to reduced volume of investment management activities.

Outlook

SGGF MC expects to have a small loss in 2006, consistent with the corporations goal to use some of its cash resources to achieve an effective wind down of its Fund companies.

SGGF MC will continue to closely monitor its costs to ensure appropriate cash resources to meet financial obligations as the Funds continue to wind down operations.

Key Factors Affecting Performance

- Ability of the fund companies to liquidate their investment portfolios at values and in the timeframe necessary to provide for full repayment of investor capital at maturity.
- Ability of the fund companies to recover their costs of operation from the revenues earned on investment funds under management.
- SGGF operates primarily on a cost-recovery basis and hence operates at or near break-even.

CONSOLIDATED STATEMENT OF FINANCIAL POSITION (unaudited)
As At

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

1. Status of the Corporation

Saskatchewan Government Growth Fund Management Corporation (the Corporation) was established for the purpose of creating and managing fund companies that have been accepted as government administered venture capital funds under the Federal government's Immigrant Investor Program.

These consolidated financial statements include the accounts of the Corporation and its subsidiary, Saskatchewan Government Growth Fund Ltd. (SGGF I). All inter-company transactions have been eliminated on consolidation. The statements are unaudited.

2. Summary of significant accounting policies

The interim financial statements do not include all of the disclosures included in the Corporation's annual consolidated financial statements. Accordingly, these interim financial statements should be read in conjunction with the Corporation's most recent annual consolidated financial statements released on April 26, 2006.

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The timely preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Actual results could differ from those estimates which may impact the actual transactions and events reported in future periods.

The accounting policies used in the preparation of these interim financial statements conform with those used in the Corporation's most recent annual consolidated financial statements.

3. Comparative figures

Certain comparative figures have been reclassified to conform with the current presentation.
